

## WORKED ON SUNDAY.

Senators Worked All Day Yesterday On Tariff Bill.

Almost All Changes Are for Increased Duties.

## THE END IN SIGHT.

Specific Duties Take Place of ad Valorem.

WASHINGTON, May 7.—This week will in all probability witness some interesting developments in the tariff discussion. The armistice arranged on Friday will end to-morrow, if not continued by agreement, and the debate, which was interrupted on Friday in the midst of one of Mr. Quay's sentences, to allow the Democrats to arrange their compromise, will be resumed if the compromise shall prove to have progressed so far as to admit of the introduction of the amendments proposed.

The senators who are engaged in formulating them were at work upon them all day yesterday, notwithstanding it was Sunday. They were also employed with them a good part of Saturday night. They had the assistance of several experts. No definite idea of the amendments could be conceived without giving all the amendments, and they will not be given to the press until presented in the senate. There will be few startling changes, but a great many of them. Indeed it is known the amendments, when incorporated in the bill, will show as many, if not more, alterations than were made in the house bill by the finance committee, when reported to the senate. It may be said without prejudice, that the report, when made, will fully justify the assertions made by the Republicans as to their number on the floor of the senate.

In almost every instance, where there have been changes, increases have been made, and there has been a general slaughtering of the ad valorem for specifics. The sugar schedules are totally changed and iron manufactures will show an interesting transformation if reports be correct.

### Big Immigration Congress.

WASHINGTON, May 9.—The immigration congress, which assembled in Augusta, Ga., on May 30, will be an imposing assemblage. No particular subjects will be assigned to the governors nor their delegates. The conference will be a mutual one of eminent scientists, geologists, manufacturers, farmers, railroad managers and governors of states, to consider the sanitary environment, mineral deposits, manufacturing capabilities, agricultural resources, improved transportation and the general welfare of the Southern states.

### Tariff on Barley.

WASHINGTON, May 7.—Representatives Lockwood, Tracey and other New York members are closely watching the barley item of the tariff bill and are relying mainly on Senator Murphy's familiarity with the brewing business to secure an arrangement of the barley schedule satisfactory to New York.

### Italians Warned.

ROME, May 7.—An official notice has been issued saying, owing to the economic crisis in the United States, numbers of willing workmen have been rendered idle, and everywhere Italians have to struggle for work against American workmen. The notice, therefore, warns Italians not to think for the present of emigrating to America, and especially warns such of those as do go to that country to avoid Maryland, Delaware and Pennsylvania.

### Gladstone on Free Trade.

PARIS, May 7.—Mr. Gladstone has written to the president of the Political Economy society of this city, praising the efforts made by the society to bring about free trade. In his letter Mr. Gladstone says he regrets that free trade has lost ground during the past thirty years. He concluded that he believes that Great Britain will persevere and patiently await the day when experience, combined with reason, will again convert men to this established economic truth.

### Big Steamship Aground.

NEW YORK, May 7.—The La Champagne, which arrived yesterday morning from Havre, while proceeding up the bay during the thick weather, grounded on the Long Island shore south of Fort Hamilton, close to the wooden dock recently built by the United States government. The vessel lies in an easy position on a mud bottom, hard and fast, within 200 feet of the shore. All the passengers were taken off in safety.

### Paying the Cherokees.

TALLAHASSEE, Ind. Terr., May 7.—After a three weeks' session the Cherokee legislature finished its work of providing for the distribution per capita among the Cherokees by blood the sum of \$6,610,000 according through the sale of Cherokee strip bonds. The payments are to be made at eight different points in the nation and are to begin not later than the first Monday in June.

### Bank Wrecker in Prison.

SAN FRANCISCO, Cal., May 7.—R. H. McDonald, jr., who is accused of having wrecked the Pacific bank and the People's Home Saving bank of this city, both of which institutions he was president, is in jail charged with the embezzlement of \$20,000 of the funds of the Pacific bank. He was arrested under a grand jury indictment and has been unable to secure the bond demanded.

## ABOUT NICARAGUA.

England Compels Her to Cancel the Withdrawal of Consul Bingham's Exequatur.

NEW ORLEANS, La., May 7.—The latest advices from Bluefields report the answer to the demands of the British minister, Goslin, that Nicaragua has canceled her withdrawal of Consul Bingham's exequatur.

Bingham refused to receive the exequatur unless accompanied by ample apology on the part of Nicaragua, to come through the hands of Minister Goslin. In reply Consul Bingham has been called to Managua, the capital, and all boats on the San Juan river and the lakes are held at his disposal. Minister Baker and Captain Watson have both fully approved of the action and course followed by Consul Braham. The murderer of Wilson, the American, has not yet been captured and has roamed at large. Captain Watson has requested, however, that he be arrested and tried.

The Americans have been frequently told by the Nicaraguans: "Your government will do nothing for you; we know that," and, acting on that assumption, have insulted Consul Braham, American citizens and the government of the United States.

Had the government at Washington acted as promptly as England did, the proper respect would be shown to American interests, American citizens and the country's flag abroad.

The action of Nicaragua in canceling Consul Bingham's exequatur, and his being called to Managua, suggests that England, in forcing her treaty right, is obtaining something better from Nicaragua and, as usual, by her vigorous policy, is getting ahead of the United States.

## JUDGES RESIGN.

Others May Now Take a Turn at Defying Judge Phillips.

JEFFERSON CITY, Mo., May 7.—All the judges of the county court of St. Clair county Saturday tendered their resignations to Governor Stone. As the governor was absent on official business, the resignations bearing the resignations communicated with him by telegraph, and left immediately for Kansas City, where the resignations will be presented and acted upon. They took with them unsigned commissions from the office of the secretary of state, filled with the names of Jasper Grimes for presiding judge, Wm. H. Hyatt judge of the First district and Joseph J. De Lozier judge of the Second district, the men agreed upon by unanimous consent to fill the vacancies, and they will not doubt be commissioned. The present judges of St. Clair county have been confined in the Jackson county jail for a long time for disregarding an order of Judge Phillips of the United States circuit court for the western district of Missouri in the matter of making a levy to pay interest on a railroad debt contracted some twenty years ago. The debt and interest now amount to near \$1,000,000, and is equal to about one-third of the assessed valuation of the county. The imprisoned judges doubtless think they have acted the patriot long enough.

It is no believed Judge Phillips will recognize the resignations, and another clash between the state and federal laws seems imminent.

## BRECKINRIDGE FORGIVEN.

He Confesses His Wrongdoing and Is Taken Into the Church Again.

LEXINGTON, Ky., May 7.—At a meeting of the session of the Mount Horeb church, of which Colonel Breckinridge is a member, and over which his father once presided, he was summoned to appear.

Mr. Breckinridge confessed his guilt in about the same way he testified in his suit at Washington, and prayed for forgiveness, saying he repented and would live a new life in the future. After a consultation he was forgiven and taken into the church again.

This move, it is believed, will put Breckinridge in good standing with the church people again.

### Round House Demolished by a Hurricane.

HUNTINGTON, W. Va., May 7.—A terrible hurricane and thunder storm passed over this region about 5 o'clock last evening, doing considerable damage here. At Central City, two miles west of here, the Ohio River railroad shops and round house were completely demolished, with a loss of \$30,000.

### Hotel Men Coming West.

CHICAGO, May 7.—Three special trains, carrying several hundred hotel men and their wives, left Chicago last evening for Denver over the Santa Fe road. The excursionists were bound for the annual convention of the Hotel Men's Mutual Benefit association, which will begin Tuesday.

### Whitely Reaper Works Burned.

MUNCIE, Ind., May 7.—The William N. Whitely Reaper and Mower works were destroyed by fire last evening. Two thousand machines ready for shipment and 1500 almost completed were destroyed. Total loss \$245,000; no insurance. Five hundred men are thrown out of employment.

### More Miners Out.

TRINIDAD, Col., May 7.—All the mines in this district are closed down with the exception of Sopris, at which place about 150 men are still at work. Trouble has been anticipated at this mine and about fifty deputies are on duty.

### Hibernian Convention.

OMAHA, Neb., May 7.—To-morrow the fortieth annual convention of the Ancient Order of Hibernians will be called to order in this city. About 300 delegates from the United States and Canada will attend.

## KELLY'S TRANSPORTS

The First Boat of His Navy is Launched.

Its Trial Trip Proves Quite Satisfactory.

## ALL WILL GO WELL

With Gen. Kelly as He Sails as He Sails.

DES MOINES, Iowa, May 7.—The eighth day of Kelly's stay in Des Moines saw preparations for their final leave taking under good headway. Early yesterday morning lumber began to be delivered at a point below the confluence of the Des Moines and Moon rivers. At 10 o'clock a detail of 300 men, mostly mechanics of more or less experience, picked out of the army, left the camp under the leadership of General Kelly, marched three abreast to the place where the lumber had been delivered, and began working on flat boats. On the way they sang "Marching Through Georgia," and while crossing the river struck up "There's One More River to Cross." They set out with great eagerness, and before noon at least twenty-five boats were in process of building, and about fifty were nearly completed yesterday. Kelly explained that it was the first chance his men had had to work, and he was very proud of the impression they made in this role.

At 5 o'clock the first boat was completed, pitched and launched. Three cheers were given for the first evidence of the Kelly navy. After plying around for a short time, Kelly and the two women who joined the army at Omaha got into the bow with four of his men, and amid great cheering began the journey down the river to test its ability to float the navy. The trial trip was pronounced in theory every way perfect.

At 6 o'clock the men dropped their tools and marched back to camp. Today most of the boats will be finished, but it is very doubtful whether the army will set sail before Wednesday morning. Meanwhile a committee is going ahead, calling on the farmers and the people of the towns near the river, to meet them as they float down, and supply them with food. The prospects are that the river will be lined with people and carriages all the way down, as the country is thickly settled by prosperous people.

Kelly expects to reach Ottumwa, about ninety miles down, on the evening of the second day, but he will hardly do so by the end of the fourth day, according to good judges. There are many here who look upon the river journey as a piece of nonsense and regard failure the only possible outcome.

Many Des Moines carpenters assisted in the work of building boats. The laboring men here have only one desire, and that is to get rid of the army.

## LEXINGTON STIRRED UP.

Sensational Scenes in a Church Over Colonel Breckinridge.

LEXINGTON, Ky., May 7.—The town is wild with excitement over the sensational scenes witnessed in the Methodist church (South) last night. After the noted boy preacher, H. C. Morrison had finished his sermon, the pastor, Rev. E. L. Southgate, began to talk about the attack made by Colonel Breckinridge at the opera house. He said that he was willing to lay down his life, if need be, in defense of the virtue of the women of his congregation. With this he broke down.

Then Morrison arose and said the city of Lexington was a "Sodom and Gomorrah," that so many of her people wanted to honor this man (meaning Breckinridge) even by returning him to congress. Southgate then added that he was sorry his original remarks before the Young Men's Christian association had not been printed in every paper in the land. "I repeat those remarks," he said, "I again say that no decent Christian can afford to vote for this man." His remarks were greeted with applause.

## MINERS WILL STRIKE.

Unless the Companies Pay Sixty Cents Per Ton They Will Quit May 12.

PITTSBURG, Kan., May 7.—The delegation of miners here Saturday decided to demand the famous Devlin proposition of 60 cents the year round and if the operators do not accede to their wishes a general strike will be ordered to take place on May 12. The operators say they cannot afford to pay it.

### A Prominent Citizen a Counterfeiter.

ST. JOSEPH, Mo., May 7.—For months past this city has been flooded with counterfeit dollars and half dollars, and although the government secret service has been at work on the case, they were never until yesterday able to locate the gang. Owing to an accident R. G. Smith, a well-known citizen, was picked up and looked upon on the charge of circulating the spurious coin. When arrested he had a large amount of the stuff in his possession, and when confronted with the fact that he could not escape, made a full confession, and it is said, gave his partners in crime away.

### Worked a Neat Land Swindle.

DENVER, Col., May 7.—County Clerk Garrett of Georgetown has received a communication from William Bentley of Aumsville, Ore., asking about land purchased by him supposedly from J. P. Ward. The land is 11,000 acres above sea level in the region of eternal snow and is absolutely useless for killing and tilling to it rests in the United States government. Ward has been working this scheme in the East for about four years. This is the first deal heard of in the West.

## A. P. A. PRINCIPLES.

Declaration of the National Council in Session at Des Moines.

DES MOINES, Iowa, May 7.—The national council of the American Protective Association has adjourned after a four days' session. The most important business transacted was the adoption of the following declaration of principles:

First—Loyal to true Americanism, which knows neither birth, place, race, creed or party in the first requisite for membership in the A. P. A.

Second—The A. P. A. is not a political party and does not control the political affiliation of its members, but it teaches them to be actively active in the discharge of their political duties in or out of party lines. Because it believes that all problems confronting our people will be best solved by a conscientious discharge of the duties of citizenship by every individual.

Third—While tolerant of all creeds, it holds that subjection to and support of any ecclesiastical power not created and controlled by American citizens, and which claims equal, if not greater sovereignty than the government of the United States of America, is irreconcilable with citizenship. It is therefore, opposed to the holding of offices in national, state or municipal government by any subject or supporter of such ecclesiastical power.

Fourth—We uphold the constitution of the United States of America and no portion of it is to be surrendered to any religious body to be guaranteed to the individual and not to be used as a protection for any American ecclesiastical power can claim absolute control over the education of children growing up in the state and under the state.

Fifth—We consider the non-sectarian, free school the bulwark of American institutions; the best place for the education of American children. To keep them such, we protest against the employment of subjects of any American church, by direct or indirect means, or by contract of any sectarian school, reformatory or otherwise, not owned and controlled by public authority.

Sixth—We condemn the support out of the public treasury, by direct or indirect means, or by contract of any sectarian school, reformatory or otherwise, not owned and controlled by public authority.

Seventh—Believing that exemption from taxation is equal to a grant of public funds, we demand that no real or personal property be exempt from taxation, the title to which is vested in the national or state governments or in any of their subdivisions.

Eighth—We protest against the enlistment in the United States navy or militia of any state of any person not an actual citizen of the United States.

Ninth—We demand for the protection of our citizen laborers the prohibition of the importation of pauper labor and the restriction of all immigration except to persons who can show their ability and honest intention to become self-supporting American citizens.

Tenth—We demand the repeal of a naturalization law by a repeal of the act authorizing the naturalization of minors without a previous declaration of intention, and providing that no alien shall be naturalized or permitted to vote in state or national election who cannot speak the language of the land and who cannot prove seven years' continuous residence in this country from the date of his declaration of intention.

Eleventh—We protest against the gross neglect and laxity with which the judiciary of our land administer the present naturalization laws, and against the practice of naturalizing alien enemies, and of admitting as candidates as the most prolific source of the present prostitution of American citizenship to the basest use.

Twelfth—We demand that all hospitals, asylums, reformatories or other institutions in which people are confined remain at all times subject to public inspection, whether they are maintained by the people or by private enterprise or individuals.

Thirteenth—We demand that all national or state legislation affecting financial, commercial or industrial interests be general in character and in no instance in favor of any one section of the country or of any one class of the people.

It was resolved that Washington D. C., be the permanent meeting place after 1896, and that all meetings be held with open doors, the public to be invited to witness and listen to all resolutions.

## STORM IN ILLINOIS.

Trees, Fences and Weak Structures Blown Down in Many Places.

CHICAGO, Ill., May 7.—Dispatches received show that Saturday's storm was more widespread than at first reported. At Fairbury, Ill., great trees, fences and weak structures were leveled to the ground. Signs in the business part of town were torn loose and hurled through the glass windows of the stores. At R. Chapman's agriculture warehouse was entirely blown out and some of the stock injured.

Great damage was done in the vicinity of Aurora, Ill. Maine station, near Albi, Iowa, was visited by a cyclone and heavy hail, which caused much damage. One woman was so badly injured that she died. Over a dozen houses were blown down and much damage done to fruit and small grain.

In the vicinity of Cerro Gordo, Ill., the wind assumed the proportion of a small cyclone tearing roofs from houses and extensively damaging others.

At Sheffield, Ill., the rains caused the roofs over the entrances of many mines to cave in, closing the mines and stopping work temporarily.

### Will Not Strike at Deepwater.

CLINTON, Mo., May 7.—The cloud has blown over the coal mines in the vicinity of Deepwater, Brownington and North Station by a refusal of the miners to meet Agitator McGregor, of the Miners' union, in mass meeting at Deepwater. It is given out on good authority that they do not desire to enter into a strike or join his union.

## Saved Our Boy

A Clergyman's Statement

Constitutional Scrofula Entirely Cured.

"C. I. Hood & Co., Lowell, Mass.: 'Gentlemen: When to tell what Hood's Sarsaparilla has done for us, I will say that 3 years ago we had a beautiful boy born to us. When about six months old he took a sore mouth. Everything that was known as usual remedies in such cases was used. I had two doctors but all to no benefit. At the age of 11 months he breathed his last. Thus we laid

in the grave. On Aug. 4, 1891, another boy was born unto us. At the age of two months he became afflicted with the same disease. I believed the boy's trouble was constitutional, and not common sore mouth. I procured a bottle of Hood's Sarsaparilla and commenced to give it regularly to both mother and baby, and, occasionally washed his mouth with a syrup of buck brush root. Improvement began at once. We have succeeded in eradicated the scrofulous blood from the system and to-day we are blessed with a nice, fat baby boy, eighteen months old. He is the very
